VANDERHOEK SPORTS, INC is registered with the U.S. Department of State as an Exporter of USML Category I Defense Articles and the U.S. Department of Commerce as an Exporter of Shotguns and related articles. All exports are subject to the prior approval of the appropriate federal agencies. Application fees above are due prior to application, and regardless of the response of the pertaining agency. Employees of VanderHoek Sports, Inc. will give their best opinion on the feasibility of an export, but in no case is this a substitute for law or the actual decision of the U.S. Government. Special orders placed through Dave's Sports Shop require a minimum 50% down payment, the balance to be paid prior to export. The U.S. Dept. of State requires up to 4-6 weeks for export licensing decisions. *The 3% upcharge is due to recent major increases in the registration fee charged by the U.S. Department of State. For more details, visit <http://pmdtdc.state.gov/registration/fee.html>. All fees are quoted in U.S. Dollars (USD). Canadian-side customer (importer) is responsible for (1) obtaining an International Import Certificate (IIC) from Foreign Affairs & International Trade Canada ([application link](#)) ([instructions link](#)), (2) issuing a Purchase Order stating their desired purchase, whether directly from Dave's Sports Shop, or a transfer of a firearm purchased through another U.S. FFL Dealer, and (3) for complying with all Canadian importing, possession and acquisition laws, including registering of the firearm in the Canadian Firearms Centre database and possession of a current Possession and Acquisition License (PAL).
